THE LINK BETWEEN TRAUMA AND MENTAL HEALTH DIAGNOSES

TRAUMALITY is a feature-length documentary challenging the way we understand mental health. It explores the growing evidence linking trauma and adversity to many of the mental health diagnoses seen today.

Through world-leading experts, lived experience and emerging science, the film examines why our mental health system remains rooted in a medical model and what a trauma-informed approach could look like.

A FILM TO WATCH TOGETHER. A CONVERSATION TO CONTINUE.

Our aim is to take TRAUMALITY beyond the screen and into communities, organisations, universities, healthcare services and learning spaces. We want the film to create informed conversations, bring people together and, importantly, **encourage those conversations to lead to meaningful action and change.**

We're looking to work with organisations and individuals who share that ambition, creating screenings that give people the opportunity to watch the film together, reflect on its message and consider what a more trauma-informed approach could look like within their own communities and systems.

HOW IT WORKS

The minimum is agreed in advance based on planned event capacity. If TRAUMALITY's 50% share exceeds that amount, the higher figure applies.

EXAMPLE

150-person event → £1,000 minimum

If TRAUMALITY's 50% share is £1,400 → TRAUMALITY receives £1,400

USE TRAUMALITY THROUGHOUT THE YEAR.

For organisations that want to use the film more than once for internal learning, training and discussion.

12 MONTHS. REPEAT INTERNAL SCREENINGS.

Each licence allows repeat authorised, non-ticketed screenings for the agreed licensed audience throughout the 12-month period.

Public ticketed screenings, sublicensing and individual at-home streaming are not included.

LICENSED AUDIENCE	UK	US \$
UP TO 250	£2,000	\$2,600
251–1,000	£3,000	\$4,000
1,001–5,000	£5,000	\$6,500
5,000+ / MULTI-SITE	CONTACT US	CONTACT US

HOW THE TIER IS SET

Pricing is based on the number of people covered by the licence - not necessarily the organisation's total workforce.

For example, a large healthcare organisation licensing TRAUMALITY for a 300-person department would fall within the 251–1,000 tier.
